“ My memories of Aunt Lucille and her then partner Joan were especially fond ones when they lived in New York. I had the privilege to spend a whole summer in New York, more than once, and once she took me to work with her at the lab and I did something with the little computer chips. She even paid me for it! I was also lucky to spend time with them traveling to Pennsylvania where I caught my first fish with a gum wrapper!! I will never forget the kindness in her heart and her love of animals. I regret not being able to reconnect with her a few years ago as she and Pat travelling across the area. Someday, we will meet again.
